## 2018 IBM Systems Technical University

8-12 October

Hollywood, Florida, USA

# Composer Smorgasbord lab

<https://github.com/silliman/ZHollywood2018>

Click on ComposerSmorgasbord.rst and follow the instructions

To start a PuTTY session:

- 1) Click on the PuTTY icon
- 2) Double-click on the **blockchain** session
- 3) When prompted for a userid, enter **bcuser**

At step 4.31, follow the instructions at

<https://github.com/silliman/ZHollywood2018/PuTTYscpInstructions.rst> or ask an instructor for help

Before the lab ends, you will need 4 sessions, but it may be less confusing to only start the extra sessions when you need them

Please use Chrome browser for Hyperledger Composer Playground

Commands are on the first line of the shaded areas- lines 2+ if present are output from the command

# Please complete the session survey!
